

Assignment - Adjustments using a photo

Make a new folder on your flash drive and MGSJ Save Drive (J) with your LASTNAMEFIRSTNAME
Save your work there and hand in when complete.

1. You may use any photo you have saved or take one with Photobooth.

Create 12 images with adjustments

Do them in order.

When saving the file, include the name of the effect in the title (MandersChad-Curves1.jpg)

1. 3 images - using Image > Adjustments > Curves (etc.). Note: you can use Curves on top of Curves
2. 1 image - Black and White (don't start with a black and white or sepia image)
3. 1 image - Hue / Saturation
4. 1 image - Shadow / Highlights
5. 1 image - Channel Mixer
6. 1 image - Gradient Map
7. 1 image - Invert
8. 2 images – Threshold (different settings)
9. 1 image - Posterize

Total 12 images
