

Artwork Aesthetic Response

Directions

In your small group, look at and critically observe the artworks displayed in the room. Think about and respond to the following prompts individually and then discuss as a group.

1. What do you “see” or notice about these works?
2. What personal connection can you make to the artwork?
3. What is your personal opinion of the work? Explain.
4. What do you think is being communicated through these works?
5. Which work do you like the least and why?
6. Are these works done by the same artist or different artists? What evidence can you deduct from the artwork that supports your claim?
7. Do these works have anything in common? Explain your thinking.
8. Is there a difference between fine art and craft? Do these pieces fit into either of these categories? If so, how?
